Ankh

Level 4/9

Relic

Active

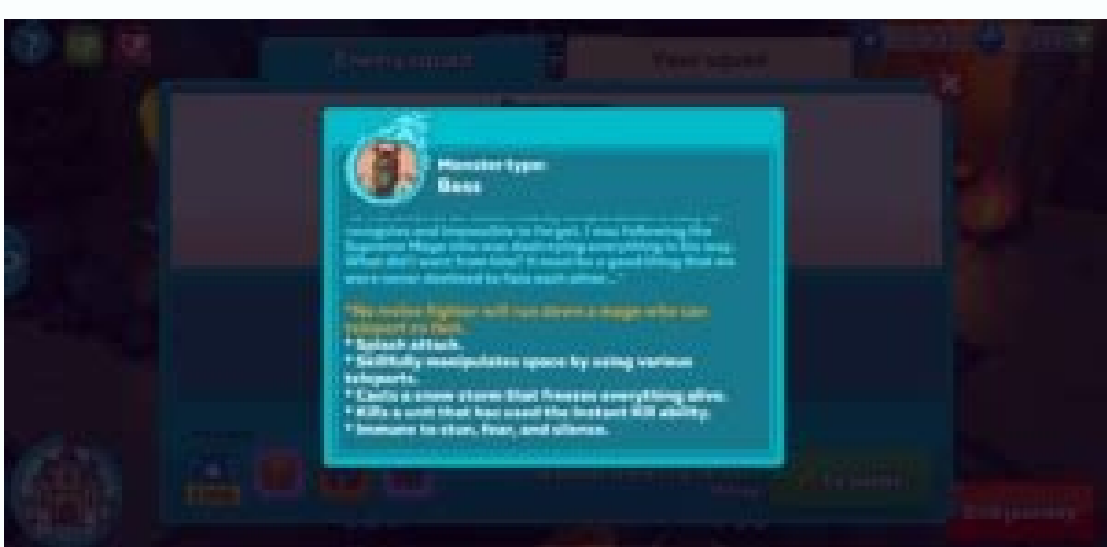

Mass resurrection
Resurrects up to **3** random allied units with **12%** of max health. Each unit can only be resurrected by Ankh once per battle.

Activation conditions:
7 sec have elapsed since the battle started. In battles not controlled by you, the hero will use the relic themselves if the squad has one live unit.

... Insanity is repeating the same thing over and over. Time after time, in the hope of change. Following this logic, the Summoner is sane: whatever he does, he comes up with a new spell every time..."

Casts random spells in a random order.

- * Attacks all enemies.**
- * Kills the unit that has used the Instant Kill ability.**
- * Immune to being stunned and silenced.**

Hustle castle dungeon boss guide.

Until you look through it and update some. This will look like a foreign language. Updating your hero / receiving more relatives OK. So when you start, your hero is bleh. He only has an acid pot and you go to the Constellation tab, and you see 3 pages .. (here is an example of a boss) and a regular waypoint: this is a suggestion that the tanks / Killers did not hit the boss as much as archers / magicians. Each gain of fighting, you win it is. Each boss fighter wins, you get a boss boss who contained tokens of constellation. If you use a torch (think Arena ticket), and you hit a boss, you get an extra baundry to unlock by boss beaten. These things you earn here, is then taken to the store. DungeonsÀ ç à € | More like fungus à € → → | Okay, that was a bad pun. * Aic Bottle: Reduces your fansical and magical armor of enemies to 0, for adversary warriors only. This is your Basic. That's what you get. I do not use it. Thus, things circulated in orange above are relchieces. To open them, you need certain needs. You need the amount of relativity fragments. Ace to the sleeve: Increases the damage caused - à €
